

5) In my opinion I do believe humanity needs saving. The following arguments will demonstrate why.

Firstly everything we can see that humans are making the wrong choices, like killing or polluting. This is wrong. I said we need to stop if it's while ago when Jesus lived - he died to save us from making drastically wrong choices like we are today.

Additionally Jesus was resurrected to try to come back and be the saviour of humanity, this shows that he realised humans were making bad choices and trying to be the saviour so that we would not corrupt the universe like we are today. Salvation means deliverance from sin. Jesus tried to deliver us from doing things which are sinful such as pollution and killing. When he

tried to save use he thought he
stoping something like this happen.

Humanity also needs saving because
we being brought up, and raise
do the wrong thing. This compare as
do not know what the right, but
to do it. Instead of being raised
the wrong thing humans should be
to do thing which is good.

On the other hand some might
think God is punishment, this means
everywhere withing over us and then
use on the right path, so we back
good life. They'll say if we
unleash over why should we in
serving.

They will also state that if
was already saved us why show
need to do so again. If humans
already saved them why why
Jesus need to come back.

save us again.

Furthermore, they will say that we don't need saving as we can use our common sense to be saved. They state that we have a brain so why not use our ~~existing~~ conscience to do the right, great thing.

Another pillar of Islam is 'Salah' this is where a Muslim must pray 5 times a day in order to seek forgiveness from Allah and also thank, this shows they don't take praise, thank does.

An additional pillar is 'Zakah' where we ~~read~~ annually a Muslim should give
